

# Aid in Neutralizing Harmful Electromagnetic Fields

Most of our modern-day conveniences emit EMFs, some stronger than others. Does this mean you have to get off the grid? Not at all!

But if you are serious about achieving and maintaining your best health, there are several steps you can take to minimize the effect EMFs have on you and your family. According to the World Health Organization, "Electromagnetic fields affect us because our human bodies have their own electric and biochemical responses such as nervous system, digestion, brain function, signs of deterioration, and heart function. Exposure to EMFs can interact with your body in many adverse ways."

Assist with shielding yourself from the harmful EMF signals and frequencies. The EMF SHIELD is a corrective, harmonizing resonance technology designed to assist the body with counter-balancing these negative "vibes" from computers, phones, microwaves, monitors, and Wi-Fi devices. Simply place the EMF SHIELD close power source to (aid in, or, assist with) protecting you, and your family.

## What is EMF?

EMF stands for electromagnetic field.

This is a physical field produced by electrically charged objects.

It is called "electromagnetic" because it contains properties of both magnetism and electricity.

## Instructions For Use

Peel and stick one EMF SHIELD, for personal anti radiation protection, on the back of cell phone. The EMF SHIELD should also be used on:

- ♥ Laptops (Place 2 SHIELDS where each palm rests on keyboard)
- ♥ Tablets (Place 1 SHIELD on the back)
- ♥ Routers & Modems (Place SHIELD near power supply)
- ♥ Wi-Fi Devices (Place SHIELD near power supply)

As long as the hologram remains intact, the EMF SHIELD will remain effective for one year. Replace every 12 months.

## Protect Your Body From Negative Effects of EMF / ELF / RF / WIFI A New Shift for Your Health

Lifespring is pioneering the path in QUANTUM RESONANCE CONCEPT, the accomplished team takes pride in the efficacy of our products and contribution towards convenience made for everyday health and wellness.

Leading scientists have long known that the key to looking younger and living longer is largely controlled by the environment that we create for ourselves. 98% of our physical expression is a direct result of this environment, with only 2% directly attributable to our genes.

Modern day stress and pollutions require a modern day solution.

Several times during the day, the human body is threatened with environmental pollution, electro smog and long exposure to mobile phones, computers, fit-bits, Wi-Fi, etc. These disturbances and other epigenetic stressors also challenge our systems even when we are at rest. Because of this emotional and nutritional interference, the body undergoes a series of physiological and energetic based changes in order to keep us alive and adjust itself to the process of change, sustaining homeostasis and harmonic resonance.

### Enhances & Supports

- ♥ Aiding in the reduction of nervous system disruptions, like fatigue, stress and sleep disturbances
- ♥ Aiding in the reduction of eye irritations, such as burning sensations
- ♥ Aiding in the reduction of skin irritations, like facial prickling, burning sensations & rashes
- ♥ Aiding in the prevention of body disruptions, like pains & aches in muscles
